Claims Policy

Product claims must be made BEFORE installation. It is our responsibility to provide a well manufactured pre-finished product, but it is your responsibility to confirm this BEFORE installation. While industry standards allow for up to 5% of the total order to contain manufacturing or grade defects, all flooring must be inspected for quality of manufacture, grade, and moisture content prior to installation.

Returns Policy

All returns require prior authorization by your salesperson at PFC. If the return is not related to a structural or finish issue, a fee of \$150 will be charged for all returns. If the material is returned damaged, a credit will be issued for only the material that can be returned to inventory. Labor will be charged at \$20 / hour + \$2.00 / box for inspection and re boxing of any damaged returns.

Exotic Width Variation Disclaimer

Cumaru, Ipe and Sucupira are very dense species and therefore are very difficult to uniformly kiln dry. For this reason, PFC will not be responsible for WIDTH VARIATION in these species and no returns for this issue will be accepted.
